### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The claimed invention of a balancing weight comprising a cartridge filled with a flowable media, arcuate in shape and extending 180 degrees or less, and being adhesively attached to the non-pressurized side of a wheel rim is not found in the prior art.

Prior art devices comprise lead or metal composite weights, arcuate in shape and clipped or adhered to the rim, or come in the form of weight adhesive tape. Automatic or constant balancing weights comprising cartridges filled with a flowable material are known, but extend 360 degrees around the wheel or rim, or comprising several sections which add up to 360 degrees.

The prior art does not teach or suggest a balance weight filled with a flowable media, adhesively attached to the outside of a rim, and extending only 180 degrees or less. Test data and information presented during the interview of May 17, 2005 further overcome any obviousness rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russell D. Stormer whose telephone number is (571) 272-6687. The examiner can normally be reached on Monday through Friday, 9 AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joe Morano can be reached on (571) 272-6684. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
